

23 August 1978

NOTES FOR HAROLD BROWN

1. 94 ships in 5 years = sustained 500 ship fleet
67 ships in 5 years = sustained 350 ship fleet

$$\frac{94}{5} = 18.8 \text{ ships/yr} = 26.6 \text{ yrs/ship for 500}$$

$$\frac{67}{5} = 13.4 \text{ ships/yr} = 26.2 \text{ yrs/ship for 500}$$

$$500 \div 22 = 22.7 \text{ ships/yr} \times 5 = 113.6$$

2. p. 11, strategic indicator - relative capability to destroy representative set of targets at various stages

U.S. leading

Losing in mid '80s

3. USMC equip for flanks in augment program
4. 8" guns in augment program
